INTRODUCTION

Ayurveda is a traditional system of medicine that originated in India more than 5000 years ago. The word Ayurveda is derived from the sanskrit words "Ayur" meaning life and "Veda" meaning knowledge/science. Thus Ayurveda translate to the "Science of life"

"Ayurveda is a branch of medical science or life science, which deals with various aspects of health, way of life and disease management in a comprehensive and holistic manner." "Health is a state of physical, mental and social well being and not merely the absence of disease." The human kind has a longlasting desire to have a quality life which is free from diseases. This is achieved by following the various principles and regimens prescribed in Ayurveda.

The committed management of Kala Ashram Foundation, Udaipur has started KAAMC&H to spread the knowledge of Ayurveda, our own medicinal science of India to the aspiring young generation to keep up the great heritage & tradition of Indian Medicine as well as to offer the benefits of Ayurveda treatment to common public in & around Gogunda Udaipur.
